

Statement of Relevance SU 89980

SU 89980 was cited during the prosecution of Russian Patent No. 2 326 842 which issued from a corresponding National Phase application. A search of available resources was performed by Applicant, a Russian Patent firm, and a patent searcher that specializes in searching for Russian and Soviet era patents. The searcher confirmed that this patent is a one page patent as was common during the era it issued. The patent likely relates to a composition of concrete.
